The purpose of this policy is to establish appropriate controls and guidelines around providing access to information as required to carry out the Municipality's statutory obligations pursuant to LAFOIP and the Municipality's legitimate business and public interest mandates, including the principles of Open Government: transparency, accountability, accessibility, and participation.

SCOPE

This policy applies to all employees and contractors of the Municipality

DEFINITIONS:

Access to Information Request - The formal process by which an individual may request access to the Municipality's information under the provisions of LAFOIP. The term freedom of information request (FOI) also describes an access to information request.

Employee - an individual employed by the Municipality, including an individual retained under a contract to perform services for the Municipality.

Exemption - a mandatory or discretionary provision under LAFOIP that authorizes the Municipality to refuse to give access to information contained in a record or, in some cases, to refuse to acknowledge the existence of a record in response to a request.

Formal Request - a request for access to information, made in writing or presented on the prescribed Access to Information Request Form that states the applicant wishes to make an application under LAFOIP.

Head - the Mayor/Reeve of the Municipality.

Informal Request - a request for information, which is general in nature, can be easily accessed in a minimal amount of time and can typically be handled by the department responsible for the information.

Information - what a record contains. It is also a term used to refer to the content of an electronic database or application. Regardless of the form, all recorded information in the possession or under the control of the Municipality is a record.

LAFOIP - The Local Authority Freedom of Information and Protection of Privacy Act.

Personal Information - means information about an identifiable individual of a personal nature which may include but is not limited to: information about an individual's race; religion; family status; age; birthdate; place of origin; employment or criminal history; financial information; health services number; driver's license number; social insurance number; home address, email address or telephone number; physical or mental condition of an individual; an individual's personal views or opinions except where they are about another individual.

Privacy - is the right to keep certain information private; freedom from unauthorized access to, use, or disclosure of one's personal information.

Record - means a record of information in any form and includes information that is written, photographed, recorded, digitized, or stored in any manner but does not include computer programs or other mechanisms that produce records.

Third Party - means a person or company other than the Municipality.

POLICY

LAFOIP and (*The Cities Act, The Municipalities Act or The Northern Municipalities Act, 2010*) determine the Municipality's obligations to provide access to information in the Municipality's possession or under its control. Every employee and contractor with access to Municipal information, as a result of their employment or contract with the Municipality, is responsible for managing that information in accordance with this policy. Also, to the extent that an elected official is engaged in carrying out the mandate or functions of the Municipality, then LAFOIP most likely will apply to those records.

1. Access to Information-Pursuant to LAFOIP, an individual has the right to request access to any information in the possession or under the control of the Municipality.
The Municipality has a duty to assist in providing as much information as possible to the applicant while ensuring personal, confidential, and third party information is protected in accordance with LAFOIP.
2. Informal Requests-Informal requests are handled by the employee responsible for the information, in consultation with the Administrator as necessary.
3. Formal Requests-An applicant who wishes to make a formal request under LAFOIP is to complete the Access to Information Request Form (attached) available on the Municipality's or Saskatchewan Office of the Information and Privacy Commissioner's website or makes a request by email or letter stating the request is being made under LAFOIP.

The applicant is to send the request confidentially to the Administrator. If an employee receives the formal access request, it should be forwarded to the Administrator.

Formal requests are handled by the Administrator confidentially and immediately on receipt. The name of the applicant should be kept confidential.

Formal access to information requests are subject to an application fee, pursuant to LAFOIP Regs.

Processing fees are determined in accordance with LAFOIP Regs.

The Administrator will use an access request checklist to ensure that all the steps have been taken (sample access request checklist attached).

Employees shall assist the Administrator as necessary in obtaining information responsive to access to information requests in accordance with the timelines legislated under LAFOIP and contained in the access request checklist.

4. Duty to Assist - The Municipality has a duty to provide assistance to an applicant, including to respond to a request for access openly, accurately, and completely; to provide an explanation of any term, code, or abbreviation used in the information, or to refer an applicant to a person who is able to supply an explanation if the Municipality is unable to do so.
5. Clarifying or Narrowing - If a formal access request is unclear, in other words, the Administrator cannot determine the records being requested, the Administrator should write the applicant asking the applicant to clarify the access request. This should be done as soon as possible upon receiving the access request.

If the access request is clear as to the records being requested, the Administrator, as part of the duty to assist, can contact the applicant to see if the access request can be narrowed. In other words, to see if fewer records might meet the purpose of the applicant and perhaps keep fees down. This should be done as soon as possible upon receipt of the access request.

6. Exemptions-LAFOIP provides for the protection of certain information. There are mandatory and discretionary provisions under LAFOIP authorizing the Head to refuse to give access to

information contained in a record, including refusal to confirm or deny the existence of a record in response to an access to information request.

When determining whether to apply discretionary exemptions, the Head will exercise good faith in balancing the municipal's legitimate business or legal concerns and the principles of open government.

7. Reviews-An applicant who is not satisfied with how the Municipality has processed an access to information request may apply to the Saskatchewan Information and Privacy Commissioner (IPC) to review the matter.

The Municipality will cooperate with the IPC in the conduct of the review.

The Municipality will work with the IPC, the applicant, and any third parties to come to an acceptable review result whenever possible.

The Administrator will determine whether to comply or not comply with any recommendations of the IPC following a review regarding the requirements of LAFOIP, the public interest, mandate of the Municipality, and the principles of open government.

If the applicant and/or third party are not satisfied with the Head's decision to comply or not comply with the recommendation of the IPC, they can appeal that decision to the court.

8. Open Government-The Municipality is committed to supporting the concepts of transparency, accountability, accessibility, and participation and, as such, is committed to proactively providing information.

ROLES AND RESPONSIBILITIES

The Administrator is responsible for:

- Corporate information, including personal information at the Municipality of residents and employees.
- Providing guidance with respect to this policy and ensuring this policy is followed.
- Receiving and managing all access to information requests, including applying all exemptions and working with the IPC when a review is undertaken.

Employees are responsible for:

- Assisting with the search for responsive records.

Access Request Checklist

There are several key activities involved with processing an Access to Information request and you need to make sure all activities are completed within the legislated timeframes.

The following checklist can be used to ensure that all key tasks are completed and timelines are met. This is intended as a guideline and can be codified to suit the needs of your local authority. It is not always necessary to use the full 30 days allowed in the Act. A response should be provided sooner whenever possible.

Calendar Day Guidelines	Key Tasks	LAFOIP Tips	
Day 1 (day after receipt)	<ul style="list-style-type: none"> • Request received by local authority. • Log the request. • Set up an LAFOIP file. • Notify Head (Mayor, Reeve, Administrator, President or CEO) if required local authorities' set out in policy. • Start thinking about where responsive records might be (make notes). 	<ul style="list-style-type: none"> • If local authority charges the \$20 application fee, then ensure it is enclosed, otherwise application not yet fully made unless fee is waived. • Make sure staff are aware of what an Access Request is, the urgency of the request, and where to immediately forward the request if received in their office. • Begin making notes right away documenting the steps you have taken in processing the request. • When you notify the Head (Mayor, Reeve, President or CEO) do not disclose the identity of the applicant. • Notifying other staff should only be on a need-to-know basis.
