POLICY

LAFOIP and (*The Cities Act, The Municipalities Act or The Northern Municipalities Act, 2010*) determine the Municipality's obligations to provide access to information in the Municipality's possession or under its control. Every employee and contractor with access to Municipal information, as a result of their employment or contract with the Municipality, is responsible for managing that information in accordance with this policy. Also, to the extent that an elected official is engaged in carrying out the mandate or functions of the Municipality, then LAFOIP most likely will apply to those records.

1. Access to Information-Pursuant to LAFOIP, an individual has the right to request access to any information in the possession or under the control of the Municipality.
The Municipality has a duty to assist in providing as much information as possible to the applicant while ensuring personal, confidential, and third party information is protected in accordance with LAFOIP.
2. Informal Requests-Informal requests are handled by the employee responsible for the information, in consultation with the Administrator as necessary.
3. Formal Requests-An applicant who wishes to make a formal request under LAFOIP is to complete the Access to Information Request Form (attached) available on the Municipality's or Saskatchewan Office of the Information and Privacy Commissioner's website or makes a request by email or letter stating the request is being made under LAFOIP.

The applicant is to send the request confidentially to the Administrator. If an employee receives the formal access request, it should be forwarded to the Administrator.

Formal requests are handled by the Administrator confidentially and immediately on receipt. The name of the applicant should be kept confidential.

Formal access to information requests are subject to an application fee, pursuant to LAFOIP Regs.

Processing fees are determined in accordance with LAFOIP Regs.

The Administrator will use an access request checklist to ensure that all the steps have been taken (sample access request checklist attached).

Employees shall assist the Administrator as necessary in obtaining information responsive to access to information requests in accordance with the timelines legislated under LAFOIP and contained in the access request checklist.

4. Duty to Assist - The Municipality has a duty to provide assistance to an applicant, including to respond to a request for access openly, accurately, and completely; to provide an explanation of any term, code, or abbreviation used in the information, or to refer an applicant to a person who is able to supply an explanation if the Municipality is unable to do so.
5. Clarifying or Narrowing - If a formal access request is unclear, in other words, the Administrator cannot determine the records being requested, the Administrator should write the applicant asking the applicant to clarify the access request. This should be done as soon as possible upon receiving the access request.

If the access request is clear as to the records being requested, the Administrator, as part of the duty to assist, can contact the applicant to see if the access request can be narrowed. In other words, to see if fewer records might meet the purpose of the applicant and perhaps keep fees down. This should be done as soon as possible upon receipt of the access request.

6. Exemptions-LAFOIP provides for the protection of certain information. There are mandatory and discretionary provisions under LAFOIP authorizing the Head to refuse to give access to

information contained in a record, including refusal to confirm or deny the existence of a record in response to an access to information request.

When determining whether to apply discretionary exemptions, the Head will exercise good faith in balancing the municipal's legitimate business or legal concerns and the principles of open government.

7. Reviews-An applicant who is not satisfied with how the Municipality has processed an access to information request may apply to the Saskatchewan Information and Privacy Commissioner (IPC) to review the matter.

The Municipality will cooperate with the IPC in the conduct of the review.

The Municipality will work with the IPC, the applicant, and any third parties to come to an acceptable review result whenever possible.

The Administrator will determine whether to comply or not comply with any recommendations of the IPC following a review regarding the requirements of LAFOIP, the public interest, mandate of the Municipality, and the principles of open government.

If the applicant and/or third party are not satisfied with the Head's decision to comply or not comply with the recommendation of the IPC, they can appeal that decision to the court.

8. Open Government-The Municipality is committed to supporting the concepts of transparency, accountability, accessibility, and participation and, as such, is committed to proactively providing information.
